Mr. Morales,

It was a pleasure speaking with you today; thank you for your time.

As I mentioned, I would like to speak about the characteristics of genuine currency, to assist you and your fellow business owners how to spot a counterfeit bill. I will also provide a brochure for everyone to take away, which details the security features of each denomination. I prefer to have a hands-on presentation and generally start by asking everyone to take some cash out of their pocket – most people don't routinely carry \$50 or \$100 bills, so if you think that people may like to have me show them where the microprinting is located on those bills (instead of finding it later based on the brochure), you might suggest to the members to bring those higher denomination bills.

I look forward to meeting you,

Kelly O'Hara
